## OWLS CLEAN UP ON SABINAL

53 TO 0

From THE OWL.

Last Friday night the Owls mopped up the Sabinal Yellowjackets by defeating them 53 to 0. Although the weather was very bad, the Owls' passing attack was good and Hollmig got off some excellent punts. It was raining during the entire game and proved very costly to Sabinal who just couldn't keep the ball in their hands. During the entire game they fumbled eight times and each time for a loss of about ten yards.

The Owls were without one of their co-captains, H. Finger, who has played excellent ball for the Owls this year. He will be ready for the "game" and in fact all the Owls will be. Let's all support the Owls in their battle with Pearsall and help them come through champions of the district.

Following is the play by play description of the game with Sabinal:

### First Quarter

The Owls kicked off to Sabinal's 35-yd. line. After losing 5 yards, they punted to the Owls' 35-yd. line. Hollmig then carried for two tries and made a first down. Dawson tore loose on the next play for a gain of 45 yards to Sabinal's 13-yd. line. Hollmig made 4 yards twice and then went across for the first touch-down of the game. He failed to convert.

Hollmig kicked off for the Owls to Sabinal's 31-yard line. Sabinal then lost 20 yards and punted to their own 35-yd. line. Hollmig made 3 yards but then lost 4 yards on a fumble. Dawson made 5 yards around right end, and then the Owls failed to complete a pass. The ball went over to Sabinal on downs. They again fumbled and lost 10 yards and on the following play they punted to their own 49 1-2 yard line. After Dawson failed to gain on a lateral, Hollmig made 9 yards on a center play. Then he carried it for a first down. Gilliam also made a first down on the next play and then the Owls failed to complete another pass as the quarter ended.

### Second Quarter

The Owls failed to complete another pass but Sabinal received a pushing penalty and it was ruled a complete pass, and a touchdown. Hollmig converted.

Again Hollmig kicked off to Sabinal's 33-yard line. On the first Sabinal fumbled and the Owls recovered on the Yellowjackets' 13-yd. line. Dawson fumbled but recovered for a loss of 3 yards. Hollmig then smashed center for a touchdown and then converted.

Hollmig kicked off to Sabinal's 5-yd. line. Again Sabinal fumbled and the Owls recovered on the Yellowjackets' 24-yd. line. Dawson lost 6 yards on the next play. Then on the next three plays Hondo attempted passes but all three were incomplete. Ball went over to Sabinal on downs. Then after making no gain Sabinal punted to the Sabinal 32. Hollmig went around right end for 20 yards to the Sabinal 12. Hollmig and Daw-

son each made 1 yard on the next two plays. Dawson then made 11 yards. Then Dawson made a touch-down. Hollmig tried to kick but the punt was blocked and he picked it up and ran across.

Dawson kicked off to the Sabinal 15. It was brought back to the 30. After several plays Sabinal punted to the Hondo 15. Dawson returned for 10 yards. Hollmig quick kicked to the Sabinal 35. Sabinal punted to the Hondo 20. Hollmig returned to the 25. Hollmig quick-kicked to Sabinal 10 and it was brought back to the 15 as the half ended. Score: Hondo 27, Sabinal 0.

### Third Quarter

Sabinal kicked off to the Hondo 5. Dawson brought it back to the 32. Gilliam made no gain; Hollmig was good for 5 yards; then Dawson made a first down. Hollmig gained 3 yards. Hollmig went through center for a first down. Hondo's fumble was then recovered by Sabinal. Sab-

## NO WAY TO PUT OUT A FIRE!

## MISS KNOPP HONORED

Miss Evelyn Frances Knopp, whose marriage to Lt. William F. Tompkins Jr. takes place December sixth in Washington, D. C., was honored with a beautifully appointed shower-tea Saturday afternoon, from three until six o'clock, in the home of Mrs. H. E. Merriman. Hostesses were Mesdames Merriman, W. H. Smith, R. J. Noonan, M. L. McDowell, J. G. Barry, R. C. Rath, Horace Cox Jr. of San Antonio, J. D. Lacy, W. T. Crow, J. H. Meyer, W. O. Rothe, O. H. Miller, and Ben Oefinger.

Red and white flowers adorned the spacious living room. The long mantel ledge over the fireplace held a graceful arrangement of long-stemmed red Toile de Holland roses in crystal vases, a mass of scarlet carnations made a bright splash of color on the piano, and white chrysanthemums, red carnations and tiny coral blossoms completed the decoration.

In the receiving line were Mrs. Merriman, Miss Knopp and her mother, Mrs. Thos. B. Knopp, and her two great-aunts, Mrs. M. S. Ragland and Mrs. J. C. Shaw of Mercedes, Texas.

Mrs. Merriman was gowned in black crepe and wore a corsage of white carnations. Miss Knopp wore a lovely frock of pale gold chiffon, fashioned with a full flowing skirt striped down each side with a band of gold lame, fitted midriff and softly draped bodice, and short sleeves also striped in lame from the shoulder to the sleeve edge. In her hair she wore a V-for-Victory nosegay of Talisman roses and gold irises. Mrs. Knopp's crepe dress in two shades of grey was set off with a corsage of red carnations. Mrs. Ragland was in black lace and Mrs. Shaw in wine crepe. They wore corsages of white carnations.

Miss Margaret Ann Knopp and Miss Delight Shaw, of Mercedes, sister and cousin respectively of the honoree, registered the guests in the bride's book. The former was attired in a frock made with a black taffeta skirt and powder blue lace bodice. Miss Shaw wore black crepe skirt and white blouse topped with a velvet jerkin embroidered in bright wool flowers. Both girls wore red carnations in their hair.

The tea table, laid with a lace banquet cloth, had an unusual center arrangement in keeping with the popular 3-dots-and-a-dash Victory theme of the present day. A flat V-shaped crystal bowl of white chrysanthemums was flanked on one side by a trio of tiny crystal vases filled with red carnations and on the other by three candles, in red, white and blue, burning in a crystal holder. Just in front of the tapers was a low crystal bowl of deep blue ageratum blossoms. A silver bowl of white chrysanthemums and red carnations flanked by candelabra holding candles in red, white and blue, also adorned the buffet, and vases of the favorite flowers completed the details in the dining room. Refreshments of cake iced in white and topped with white flowers traced with gold, red, white and blue mints, salted nuts, coffee and tea, were served.

A musicale was presented during the tea hours. A local group, composed of Mrs. C. D. Sadler, piano soloist and accompanist, Ruth Rucker, Rose Mary Finger, Betty Jean Merriman, Henry Martin Finger, William Horace Holloway, Mrs. R. C. Rath, and Mrs. August Finger, entertained with songs and piano selections the first hour and a half. The latter part of the afternoon, a group of girls from Our Lady of the Lake College, San Antonio, and members of Sigma Alpha Iota, music fraternity of which Miss Knopp is a member, presented a delightful program of violin, voice and piano selections. The group included Misses Barbara Hensley, Marie Pawelek, Jean Ritchey, Gladys Schewitz, Dorothy Hausner, Nellie Kathleen Sharp, Mary Brown Campbell and Claire Fitzpatrick.

Mrs. Lacy and Mrs. Rothe alternated in greeting the guests at the front door. The former was in green chiffon with a corsage of yellow irises and the latter was in black crepe with gold braid trim. Her corsage was red carnations. The other members of the house party alternated in hostess duties in the gift rooms and in presiding over the tea table in the dining room.

Mrs. McDowell was in black crepe trimmed with gold sequins. Mrs. Barry wore a black crepe skirt and powder blue blouse threaded with gold sequins. Their corsages were red carnations.

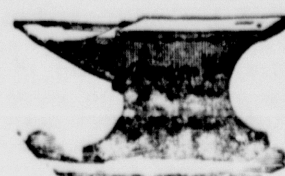

A blue chiffon frock with a round collar of gold sequins was worn by Mrs. Rath and white flowers were worn in her hair. Mrs. Oefinger wore French blue crepe and pink carnations as a corsage.

Mrs. Meyer's frock of green taffeta was banded in deeper green velvet and her flowers were white carnations. Mrs. Crow's dress was black and red crepe and her corsage of white carnations.

Miss Betty Jean Merriman, in blue satin with pink flowers in her hair, and Miss Mary Ann Noonan, wearing eggshell silk net over satin and blue dolphinium in her hair, assisted.

## A LAST FAREWELL

There died in Tennessee, on the evening of Tuesday, November 18, 1941, Mrs. Emily Roper, last of this writer's eight sisters. Out of a family of thirteen brothers and sisters, only two of us remain alive—the writer and an elder brother, F. M. Davis of Memphis, Tennessee.

Emily Isabella Davis, the sixth child and fourth daughter in that group of thirteen, was born to the late Francis Marion and Mary Lockhart Davis near Booneville, then part of Tishomingo County but now Prentiss County, Mississippi, on January 29, 1863. When she was a small child her parents left that part of the state and in 1869 settled on a farm in Marshall County, Mississippi, near where they had both been reared and where, after their marriage, they had resided before moving to Tishomingo just preceding the Civil War. Here she grew into young womanhood and on December 16, 1886, she was married to James B. Roper.

The first years of their married life were spent on a farm near Byhalia, but some twenty-five or more years ago the family moved to Memphis, Tennessee, where she has since resided. There were born of this marriage six children, four sons and two daughters. The husband and one son preceded her in death several years ago. Several grandchildren join their parents in mourning her departure.

These are the brief and simple annals of one whose only claim to fame is that she was a dutiful and loving wife and mother. And she was all of that. In all our association with her since her marriage, we have no recollection of ever hearing her voice raised in anger at either husband or child, and if ever a woman held the unfeigned love and respect of companion and children she certainly did. What richer wealth than this could any one claim? What sweeter compensation could life's labors bring? What greater tribute to her memory than this—she had earned and deserved it all!

Advancing years, she was 78 years, 9 months and 19 days old at the time of her demise, and the arduous cares and sorrows of a long widowhood sapped the strength of a stout heart and a strong constitution and for the last several months she had been an invalid and her death expected at any time. She sleeps now in the quiet cemetery at Byhalia, Mississippi, beside the companion she loved so well in life, and there is a melancholy consolation in the knowledge that all mortal pains and anguish of heart are passed. And the faith that bids us hope for a blessed immortality beyond the reach of mortal ills brings comfort to the heart forever torn by last farewells—even the last to the last of those so near and dear as ones sisters.

## YOUR LOSS

Another man's fire may be your loss.

That may seem an exaggeration but it's easily proven. A fire, for instance, may destroy valuable taxable property in your town. Rebuilding may take many months, or the property may not be rebuilt at all. All other taxpayers, yourself included, must directly or indirectly make up for the loss of tax revenue.

A fire may destroy a factory. If you're an employee of that plant, you'll have to start looking for a job. If you're a business or professional man, your income may suffer because of the sudden and drastic cut in local purchasing power. Men who are thrown out of work can't pay their bills. This reduces their buying to a minimum.

Many cases are on record where a big fire has resulted in virtual exodus from communities. People move away, in search of jobs elsewhere, and they don't come back. Down go property values—up go taxes. Community progress may come to an end, and retrogression set in.

These little, commonplace illustrations show what fire means to you. It means destruction without recompense. An insurance policy, vital as it is, can't make up for lost jobs, lost taxes, lost opportunities. It can't bring back the important intangibles which fire destroys.

Is fire prevention worth while—

### INFORMATION FOR SELECTEES

Former enlisted men of the Army, who have had eleven months' continuous service and who are within the Selective Service registration age brackets, are eligible for enlistment in the National Guard or in the Enlisted Reserve Corps, General J. "Matt" Page, State Selective Service Director, pointed out today, instructing local boards to so advise such men when they are registered.

All enlisted men who were in the registration age brackets on October 16, 1940, or July 1, 1941, and who are not already registered under the Selective Training and Service Act, must register when discharged from the military establishment, General Page said, and he emphasized that those eligible for induction under that Act who do not enlist in the National Guard or the Enlisted Reserve Corps will be inducted. He said:

"Former enlisted men of any component of the Army of the United States, within the age limits for Selective Training and Service registration, who have had more than eleven months' continuous active Federal service, and who have been honorably discharged, may be enlisted or reenlisted in the State Detachment of the National Guard, or in the Enlisted Reserve Corps.

"Application for enlistment in the State Detachment of the National Guard should be made to the Adjutant General of the State of Texas, at Austin.

"Information relative to enlistment in the Enlisted Reserve Corps may be obtained from the office of the Eighth Corps Area Commander, Fort Sam Houston, Texas, or from the nearest Army Recruiting Station.

"When a former enlisted man in the Army presents satisfactory evidence of enlistment in the National Guard or the Enlisted Reserve, his local board will put him in Class I-C upon receipt of his Form 166. On the other hand, any former service man who does not so enlist, or who is not eligible for enlistment in the National Guard or the Enlisted Reserve, shall be delivered for Selective Service induction provided he is not exempted by his former service and if he has not been placed in a deferred classification for any other reason."

The Selective Service Act, as amended, General Page said, relieves from liability for peacetime training and service under the Act only those Regulars who have satisfactorily served as officers or enlisted men for at least three consecutive years in the Regular Army, Marine Corps, or Coast Guard, or any enlisted man honorably discharged from the Regular Army or the Coast Guard within six months prior to the completion of his regular three-year period of enlistment.

GET YOUR FARM MACHINERY IN CONDITION

Get you farm machinery in A-1 condition now and be ready for next year's food production pledge, V. P. King, chairman of the Medina County USDA Defense board, said this week.

"Getting farm machinery in good condition now will be a safeguard against unnecessary delays and breakdown of machinery during the busy farming season," V. P. King said in pointing out that defense production will probably overload railroads, express companies and parcel post system next spring.

OPM has asked for a drastic reduction of steel for civilian needs because of the unprecedented quantities needed in the manufacture of guns, planes, tanks and bombers. Sufficient steel has been set aside for repair parts of farm machinery, the chairman explained.

All farmers of Medina county are asked to check their machinery and order all necessary parts by Jan. 1. By this method, manufacturers will have a sound, practical idea of the quantities needed for repair parts.

If parts are not available, farmers should notify the county defense board, he said.

## QUIHI NOTES

And Joseph was brought down to Egypt; and Potiphar, an officer of Pharaoh, captain of the guard, an Egyptian, bought him of the hands of the Ishmaelites, which had brought him down thither. Gen. 39: 1.

Selling a brother into slavery for hard cash, regardless of what motive prompted the brothers, reveals a sinister heart, a very low moral level. It's closely kin to sending fellow-citizen into bloodshed and death for no convincing reason. Such brothers can easily cook up a shrewd lie to deceive an old father and make the balance of his days a daily misery, shortening the allotted time of his earthly existence. Indirect murder, if anything. Such brothers can stand and shed crocodile tears, trying to comfort that sorrowing father and, when unobserved, laugh over that dastardly joke played, most likely, on the whole family. Such brothers watched untouched and dry-eyed when the wailing lad was torn away and packed with other chattel and marketable commodities and, perhaps, with a number of equally unhappy chaps, severing the homelies, the most natural and intimate ties the human heart knows of. What brutal specimen of the human race working under God's bright sun, with hundreds of clean and helpful jobs at their disposal! Man's greatest enemy is man. Including our time.

A long tiresome, exhausting trip. Not a word about the conversation, the treatment, the food and shelter, the tears and prayers. Much has been written since about trips and treks of traveling emigrants and pioneers for new homes, by ship and rail, horseback and prairie-schoner, but the descriptions are woefully meagre and inadequate, especially in those days when writing was a rather rare art, of those days when the first generation felt the privations, the need, the second often had to bleed, in self-defense, and the third generation did succeed. Company divides and minimizes worries and helps in mutual encouragement; Joseph was alone with his particular sorrow. Those old-timers mostly were inured, accustomed to toughened conditions; Joseph, though perhaps not pampered and brought up in the lap of luxury, yet he must be classed as a tenderfoot, and the new and unavoidable exposures and slave-hardships might easily strangle his vitality. Those old settlers had a definite goal in view, a new, real home of their own; there were no prospects for a second home in slavery. He never said a word about that part of his life. Was he unconcerned, living in a trance of sadness that made him unconscious of his whereabouts, did he commend his way unto the Lord?

Egypt! the land of his destination! A land of fabulous resources, extensive industries, military strength, science and art, of high-class civilization, commerce and contact with other leading nations. The granary of the world. The U. S. of his time. Maybe the land of his dreams, of his secret yearning. No chance for perambulating the streets, taking in the sights, milling along with the hustling and bustling populace and; the tourists from everywhere, no time for rejoicing in a new world and scribbling down his noel impressions for spellbound friends at home. You can see little when tears befoe and blind those eyes, when there is a rush for the slave-market or a speedy delivery to a man of high connections and a generous purse, an old customer of those traders who knew his wants and tastes in that direction.

And the young man lands in the palatial home of a high official of the King, of an army officer of high rank, in the house of Potiphar, where he is surrounded by luxury and comfort and grandeur that he had never seen or heard of. But he is only a slave, not of the muscular roughneck type, but still a slave, awaiting the summons and commands, the eccentricities and humiliations from a master and his household whose language he does understand. The difficulties start at once as with all newcomers in a strange land, some annoying and perplexing, some awkward and humorous. A slave must not indulge in humor. The whip is close at hand.

How long will it take him to acclimate himself? An old commissioner of immigration used to say, that some of the immigrants arrive over here in the forenoon and are ready for business in the afternoon; others need months or years to feel at home; still others always feel themselves strangers and take their homesickness to the grave. Joseph and his tribe belongs to the first type. And the Lord has not forgotten him.

Here we insert that item of which we have given advance notice and which may no longer be news to some, but a promise must be kept.

We refer to the wedding of Miss Esther Neumann, the daughter of Mr. and Mrs. Otto Neumann of Upper Quihi, who was chosen for lifemate by Mr. Elmer Sprott, the son of Mr. Otto Sprott and his late spouse, Minnie, nee Pressler, from the vicinity of Tarpley, Texas. The day was November the 12th. Immediate friends and relatives had assembled for the solemn occasion. When the pianist intoned the Wedding March, the bridal couple came towards the altar, preceded by the witnesses, Mr. Edwin Sprott and Miss Leora Wiemers. Under impressive strains the rings were conveyed and exchanged, and we tried to find the appropriate words to linger with them. Again under musical accompaniment they made their exit, receiving hearty good wishes at the vestibule. It was a pretty wedding, with all the embellishments of flowers, even though we still lack talent and qualifications to give you a minute description of dresses and hats and shoes, etc. May the Lord enter with them in their new home near Tarpley.

We have been informed that Mrs. Henry Nietenhoefer is down in bed for several days. May it not be anything serious. Many others exhibit the usual winter colds and other inconveniences. How little can we stand of heat and cold—always on the receiving end.

The Ladies' Aid will meet on December 4 at the usual place, the renovated and additionally furnished Parish Hall. The meeting is important. Please arrange to come.

The preparations for the Christmas program of the Sunday school are in full swing. Your children will enjoy taking part in it. Send them.

Announcements for November 30: Sunday school and Bible class at 9:30; German service at 10:30. No evening service. Can you spare one hour out of 168 hours, per week, for the Lord's worship? Must He go begging for it? We invite you cordially.

—C. W.

This publication is published through the cooperation of over 600 American universities and colleges. It is the only means of national recognition for graduates which is devoid of politics, fees, and dues. Several students from accredited colleges are selected each year, by an unprejudiced committee, for their biographies to appear in WHO'S WHO AMONG STUDENTS IN AMERICAN UNIVERSITIES AND COLLEGES. These books are placed in the hands of hundreds of companies and others who annually recruit outstanding students for employment.

The purpose of WHO'S WHO is to serve as an incentive for students to get the most out of their college careers; as a means of compensation to students for what they have already done; as a recommendation to the business world; and as a standard measurement for students.

### NAMED BLUEBONNET BELLES

Austin, Texas, Nov. 25.—They're the "people's choice"—374 University of Texas co-eds who were elected Bluebonnet Belle nominees of 1942 by popular vote in campus organizations.

Each club or dormitory is allowed at least one Belle nominee, and more if its membership rolls go above fifty. Only thirteen of them will be chosen for the Bluebonnet Belle "beauty" section of the Cactus Texas yearbook, but all 374 will be presented at the thirteenth annual Round-Up Revue and Ball next March 27.

The presentation of the nominees is a traditional part of Round-Up ceremonies, and accompanies the introduction of the University Sweetheart, who is chosen by campus election, but whose identity remains a secret until the night of the Revue.

On the Bluebonnet Belle nominee list are three students from Hondo—Mary Ann Noonan, Betty Jean Merriman, and Judy Devereau Lacy. Miss Noonan and Miss Merriman are registered in the College of Fine Arts; Miss Lacy is taking a liberal arts course.

Marjane Brubeck, arts and sciences student from Natalia, has also been nominated for Bluebonnet Belle honors.

## DEER HUNTING CONTINUES BIG INTEREST HERE

Deer and turkey hunting still hold the interest of many visitors as well as local sportsmen in this section of the County. A large number of turkeys and deer have already been killed and some are stored in the Hondo Ice Plant, we have been informed. Two cars drove in to the plant with eight deer to be stored a one time Sunday. In six days time a party of ten people from Seguin bagged seventeen deer and two turkeys, and had their picture with their game in the San Antonio Light last Sunday.

Among the local hunters who have been fortunate in killing game, so far as we could learn, are Elmer Leinweber, buck; Herbert Brucks, turkey; Alvin Britsch, turkey; Franklin Bless, Paul Oeffinger and John Henry Graff, high school students, who got their bucks last week; Dr. W. B. Meyer, buck. Among the ladies Mrs. Clinton Jagge shot her first deer, a 4-pointer, last Thursday.

Frank Rucker informed us that he still has two deer to kill, as we gave him credit last week for the buck brought in by his brother-in-law, Tommy Finger. We are glad to correct this as we wouldn't want Frank to get in bad with the game warden—with three deer!

### LARGE GROUP JOINS STUDY CLUB

Twenty-two members and several guests were present at the second organization meeting of the Catholic women's study club, held Tuesday afternoon, November 25, at the home of Mrs. Frank X. Vance. A short business meeting was conducted by Mrs. M. L. McDowell, president, at which time the club was divided into two groups, Mrs. J. B. Dixon and Mrs. Ed Ney were named leaders of groups 1 and 2 respectively. The groups will meet simultaneously every two weeks, on Tuesday afternoon, beginning at 2:30 P. M.

Two distinguished visitors present were Mrs. LeBlanc of San Antonio, State Regent of the Catholic Daughters of America, and Mrs. Ralph Goeth, Vice-Regent, of Austin. The pastor, Rev. C. Garcia, introduced Mrs. LeBlanc who spoke briefly on the work of her organization. Mrs. Goeth gave an excellent book review of Mrs. Francis Parkinson Keyes' "The Grace of Guadalupe". At the close of the review Mrs. Vance served refreshments of fruit salad, sandwiches and punch.

Group No. 1 will meet at the home of Mrs. V. H. Boon and Group No. 2 with Mrs. Ed Ney on Tuesday afternoon, December 9th.

### LIONS CLUB TO HAVE CHRISTMAS TREE IN PARK

At the regular meeting of the Hondo Lions Club Wednesday at the Armstrong Hotel, it was decided to again sponsor the public Christmas tree in the railroad park on the Highway. Mr. N. C. Johnson was named chairman and he is to name his own committee members for help with erecting the tree.

Several reports of committees were given. A group will go to San Antonio next week to inquire into the purchase of a street sweeper for Hondo. Dr. W. B. Meyer reported on the bridge tournament now in session and announced Mrs. J. B. Dixon as high score winner for Tuesday night's contest, the second in the tournament. Lions R. C. Rath and J. G. Barry are to represent the Hondo Club at a zone meeting next Tuesday night at Eagle Pass.

A delightful musical program was presented by Miss Evelyn Woodley, Henry Martin Finger, and Mrs. C. D. Sadler.

## OWLS PREPARE FOR PEARSALE

Coach Tom Bridges' Owls are working hard this week getting ready for their battle with the Pearsall Mavericks. They meet in Pearsall tonight (Friday) in the season's finale.

Pearsall is the defending regional champion, having won the honors last year after winning the district championship over the Owls by pen-etrations in a 7-to-7 tie. The Owls have won the championship of the north zone of the district without a defeat, but lost an early season decision to the Mavericks 14 to 7.

Both teams have come along considerably since that game, and a real treat is in store for the fans.

Tickets are 55c and are on sale locally at the San Antonio Public Service Co. office. A crowd of three hundred or more Hondo fans is expected to drive over to Pearsall for the game, which starts promptly at 8 o'clock P. M.

# THE EDITOR'S TURN-ROW

Conservation of foods and feeds, and plans for the largest possible production of more of these essentials of man's existence should now engage the thought and attention of every tiller of the soil. How absurd now appears the philosophy of prosperity through scarcity!

The Christian Science Monitor, the paper presumed to be "run as Christ would run it" yet finds its within its conscience to follow Roosevelt in all his devious ways, at last, in a spirit of revulsion, confesses, "Many Americans are weary of the subterfuges by which their country has had to hide behind other flags in getting supplies to the front lines." Could Christ have condoned "subterfuge" in the first place, as the Monitor has done?

From a news commentator comes this alarming statement: "It is an ironical fact that hundreds of thousands of men are being thrown out of jobs during a time when there is a shortage of suitable labor — and thousands of businesses are in danger of being shut down during a time when consumer demand and consumer purchasing power for all manner of commodities, is extremely high. The figures indicate that there simply isn't sufficient supply of many basic materials to meet the war demand and the normal demand at the same time. And the smaller enterprises of the country, which aren't able to produce the tools of war, are taking the beating." This condition portends hunger in the suffering industrial centers, with bread riots and their attendant evils. Whither are we drifting?"

"Administration leaders say the President will (and he has) ask Congress to repeal the Neutrality Act prohibitions against arming U. S. merchant ships or sending them into belligerent zones. If this is true, the President has rejected the advice of those who want him to continue (an admission that he has been) sidestepping Congress and MAKING WAR POLICY BY EXECUTIVE FIAT. Those advisers fear the disruptive effects of congressional debate; they are too blind to see that NATIONAL FAITH and UNITY ARE BEING STRAINED BY EVASION of the constitutional injunction that Congress must decide the war issue. The President can no longer (could he ever?) go around Congress without ignoring the democratic method to which this nation is dedicated and he is committed. THE ISSUE IS THE PRESERVATION OF AMERICAN DEMOCRACY. This TRANSCENDS even THE FATEFUL QUESTION OF WAR OR PEACE. Of course Congress has a responsibility for using the democratic processes. That duty has not been met during recent weeks. No executive can assume powers of Congress unless Congress defaults. There has been too much buck-passing on Capitol Hill, too much willingness to let the President make the decisions and take the consequences. THIS, MORE THAN ANYTHING ELSE, IS DESTROYING PUBLIC CONFIDENCE." And thus does the Fort Worth Press, a Scripps-Howard paper, supporter of Roosevelt's foreign policy, gag over the duplicity and crookedness that reigns in Washington! Whom, may one ask, are the real "sabotagers" of American democracy?

## "A DELIBERATE UNTRUTH"

From a Scripps-Howard chain newspaper that has consistently supported the Roosevelt nebulous and ever changing — on the surface — foreign policy, we quote the editorial that follows, as it appeared under the above caption:

The President's trial balloonist-in-chief, Senator Pepper, declared in the neutrality repeal debate he favored an American expeditionary force if necessary to defeat Hitler.

Mr. Roosevelt on Navy Day hinted another A. E. F. — "Our new army is steadily developing the strength needed to withstand the aggressors." The Army command has no idea of battling Hitler troops in this country.

Hardly a week passes without an authoritative British report that Hitler cannot be defeated except on German soil, and that an A. E. F. will be needed. This has been stated officially by Generals Wavell and Auckinleck.

A similar statement has just been issued by 10 Canadian editors and correspondents, after conferences with British leaders, including Mr. Churchill. Victory is impossible unless all nations opposed to aggression — meaning the United States —

"wage total war." They conclude:

"Germany cannot be effectively subdued until the war is brought home to the German people themselves by actual invasion of their territory."

Britain has no intention of attempting major invasion of Europe without an A. E. F. That has been proved through four months of land inaction, while Russia has held most of the Nazi army and air force. In face of this unique opportunity and of the strongest British public protest during the war, Churchill has staked the life of his government on refusal to send a B. E. F. under present conditions.

This British expectation of an A. E. F. seems fantastic to the average American, who knows we have not the ships or millions of trained soldiers for such a job, and that those we have are without American equipment given to Britain. He knows the draft law supposedly prevents it. He knows the President has made many specific pledges, such as the one last winter: "You can therefore nail any talk of sending armies to Europe as a deliberate untruth."

It may be that the President has changed his mind. He is under no obligation to be consistent. But when and if he does change his mind, the people have a right to ask him to be frank about it.

Before the Senate votes on the proposed neutrality repealer—which would be a blank check for undeclared war—it should learn from the President whether British and American talk of an A. E. F. is still "a deliberate untruth."

Well, the Senate voted, and has any one "learned" anything more dependable "from the President."

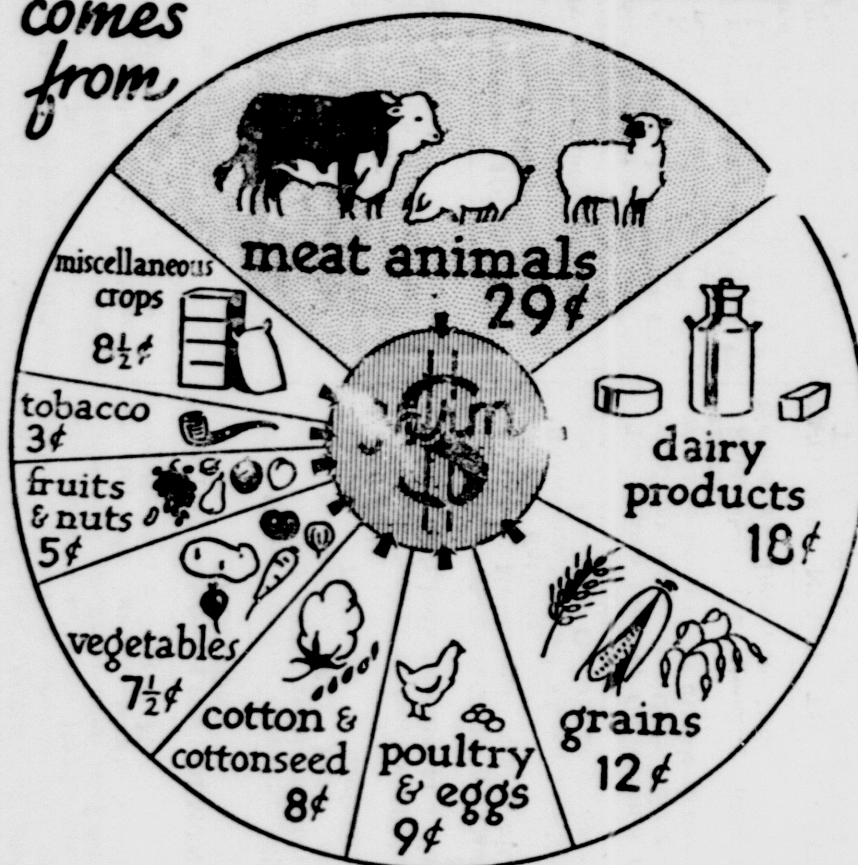

Farming said in the beginning that however wrong and ill-advised the law was in the first place, tampering with it under the time and circumstances of the call to congress was tantamount to a declaration of war.

It takes the light a long time to break on some minds.

But it eventually breaks!

The fate of Franklin Roosevelt's attempt to leave behind him a mammoth international monument of concrete and steel is bound up in the greatest barrel of pork Congress ever has assembled at one time. For two decades power and navigational development of the St. Lawrence river's International Rapids has been a matter of bitter controversy. Every effort to put the plan across has failed. Observers here are inclined to feel that in the current rivers and harbors bill the President is making what may prove to be his last-ditch fight for the scheme. The bill has been put together like a complicated crossword puzzle, in an attempt to give legislators from most States their own political prizes. Enough congressmen have been put on the spot so that if the measure does not pass, a majority in each House will have to run around their home States explaining why they turned down "benefits" for their own constituents. As always in such hash, some of the items are worthy and highly desirable, and could be passed on their merits. But the principal goal, insiders believe, is to get through—in the guise of National defense — developments that have been rejected heretofore. The St. Lawrence is notable among these, and ultimately would involve by far the greatest outlay. The Florida ship canal, a \$197,000,000 ditch on which F. D. R. spent several millions before it was turned down by the lawmakers two years ago, is another. For both of these, lobbying and publicity committees have set up headquarters and gone to work, with much discussion of the purported merits of the projects and none about the backgrounds of the propagandists. Don't take this for Farming's charge, and say this expose of an effort to bribe and blackmail Congressmen by a tricky politician, is the empty charge of an anti-New Dealer. It is copied verbatim from the writing of a man on the ground in Washington, Ray Tucker in his National Whirligig column. What do you think?

## Where the FARMER'S DOLLAR comes from

## LIVE STOCK PROVIDES FARMERS GREATEST SOURCE OF CASH INCOME

Cash received for live stock represents the American farmers' largest single source of cash income. In 1940, as illustrated by the above chart prepared by the American Meat Institute, farmers received an average of 29 per cent of their cash income from the sale of meat animals. Over a period of years the return from meat animals has averaged approximately 1-4 of the farmers' total cash income, according to United States Department of Agriculture compilations.

Figures just made available by the U. S. Bureau of Agricultural Economics show that for the first seven months of this year (January-July) live stock growers received a total of \$1,669,000,000 or \$415,000,000 more for their meat animals than during the same period a year ago. The increase, approximately 33 per cent, reflects a higher level of live stock prices this year than last and materially larger marketings.

Like many other governmental theories, the administration's effort to economize on paper by mimeographing its propaganda sheets on both sides boomerangs. It spoils the sheets for scratch paper, the most useful purpose it serves, and is liable to aggravate the surplus of kindling wood. Oh, that the "braintrusters" might learn to economize by cutting out the propaganda altogether!

## THANKSGIVING DAY, 1941

First, let us all give thanks  
That we dwell in a land at peace;  
Within our churches may we pray  
That wars abroad shall cease.

Be grateful, too, for Pilgrims wise  
Who surrounded us with oceans  
To protect us from aggressive men  
With their peculiar notions.

Bow down together, mighty race,  
Americans all—forever one!  
Thank God for His abundant grace  
Exceeded to day toward none.

Fling out Old Glory to the breeze,  
Our forefathers to remember;  
Bright red and white and blue  
On the grey skies of November.

—MONTA WEST KIRKCONNELL

## THANKSGIVING

As Nature rests her lovely charm  
Upon the peaceful, winter's arm,  
And spreads her blanket of content  
About the fruitful season spent—  
We look upon her works of art  
With gratitude and thankful heart,  
Accepting of the season's gain  
In boundless gifts, which still remain.

And far upon the distant rim  
We see the stalking, shadows, grim  
And threatening, as they slowly creep,

While trusting Nature lies asleep,  
And in this trust abides no fear—  
Could peace forget to linger here?

—MABEL G. AUSTIN.

## NEW HOPES

I walk among the stars of light,  
And mist is in my hair.  
I feel the breeze  
From swiftly spinning spheres  
Blow lightly on my face, still young.

I walk among the stars of light,  
Where hold the joys of after light,  
And mist is in my hair  
With hopes seen everywhere.  
I feel the breeze,  
That's sure to please,  
From swiftly spinning spheres  
Wisp by the fading years.  
Blow lightly on my face, still young  
And wake the morning songs, unsung.

—VELOROUS CALL.

## COSMOS BLOSSOMS

Red and white and pink they glow,  
Nodding in the breeze,  
Nodding in the sunshine bright;  
Hear the busy bees  
Hum around their chalices.

Now they smile up to the sky  
For the morn is fair,  
All a-sparkle, drenched with dew;—  
Never blooms more fair  
Quaffed the summer air.

—HENRY E. BAKER.

## CONTENTMENT

I have every thing in life I want.  
Is there one who can boast more?  
So when new luxuries my dreams haunt  
Their claim to me I ignore.

In no other way could I maintain  
My one desire to flaunt them.  
When costly trinkets I can't obtain  
I morely cease to want them.

—CLARA GATES.

## AUTUMN

When autumn paints the hills with gold,  
And veils the trees in purple haze,  
And lacy patterns bright and bold  
Reveal a beauty to amaze,

Then joy is rampant every where,  
When autumn paints the hills with gold;

The scent of pine is in the air,  
And loveliness the days unfold.

A horde of wealth in leafy mold  
Is drifting with the whispered breeze  
When autumn paints the hills with gold,  
And burnishes the quaking leaves.

A hallowed glow beneath the blue,  
Makes pictures lovely to behold,  
That we, in speechless silence view,  
When autumn paints the hills with gold.

—EUNICE CLEMENT HYATT.

## THE FIELDS OF HOME

We offer praise and thankfulness  
For garnered fields of grain,  
And join the toiling harvesters  
In a glad, triumphant strain  
For beauties of the flaming hills  
That wear a sumac veil,  
Sheltering a countless, scuttling horde  
Hidden along the trail.

And ever the wild teal leaves her nest  
In a sweep of bright blue feather,  
We pause in ecstasy of praise  
Where fields of purpling heather  
Fling out a challenge to the soul  
To rise beyond the gloam—  
Leaving the skies on wings of faith  
Across the fields of home!

—KAY McCULLOUGH

## ADAPTABILITY

At heart  
I am a farmer's wife  
Tho it's my part  
To live a lawyer's wife—  
—EDITH ANISFIELD WOLF.

## FARM WINTER

Winter is just around the bend  
Winter will soon be here  
Oh, winter is getting near  
Winter is just around the bend!

The leaves are all turning brown  
The wind will whirl them down  
Winter is just around the bend.

The birds are going toward the south  
The children are stying in the house  
Winter is just around the bend.

We will put up the old heater  
And never another will be neater  
Winter is just around the bend.

The house will be cozy and warm  
Around the stove the children swarm  
Winter is just around the bend.

—GEORGE ANDREW MOORE.

## MUSIC DIVINE

Music divine, revealing to my soul  
A sense of peace as golden scrolls unroll.

Music divine, all memories fulfilled  
That bird-song held or mother-longing stilled.

This universal tongue can well express  
In melody all ache and tenderness.

Music divine no evil mind can stand  
When purity and song go hand in hand.

I long to drink from this effulgent bowl,  
I seek for songs God's glory to extol.  
—ELOISE COOPER FOWLER.

## DO YOU?

I know a lady who would weep  
At movies—when she didn't sleep.  
At church she'd pray for sinners' sake,  
That is, when she could sit awake.  
But she could play cards till dawn  
And never drowse a wink, or yawn.  
—JACK GREENHILL.

## GARDEN TALKS

"Why didn't some one write a book like that for me when I was a young man." Such was the thought that leaped into our mind when we opened Mrs. Ina L. Mellichamp's attractive little manual, "Twenty-Five Talks on Poetry." A poet, herself, well versed in the technique of poetry composition, these talks come both from the head and the heart—from the heart from a love for poetry beautifully expressed; from the head in an effort to help, from her store of technical knowledge, the aspiring poet struggling to find that expression. If you ever have the urge to write you should read and digest the contents of this book. It can be had for the small sum of \$1.00 from the author, Mrs. Ina L. Mellichamp, 459 Belden Avenue, Chicago.

One of the most attractive anthologies we have ever been favored with is The Muse of 1941, coming from the Horizon House of 509 Fifth Avenue, New York. It is edited by Charles K. Gabriel and is beautifully illustrated by Marion Connelly. An unique feature is an introductory

section, beautifully illustrated with photographs, dealing with the life of Henry W. Longfellow, with selections of some of his most popular poems. The book will be an attractive addition to any library.

The poets division of the Los Angeles Manuscripters will met in the Pine Room of Clifton's Cafeteria, 648 S. Broadway, at 6 P. M. the third Thursday of each month. Will Strong of Alhambra is chairman. Georgia C. Nicholas, president of The Manuscripters, will also be present.

Albert Emerson Brown, Shelbyville, Michigan, will give you some interesting information about his anthology, "Poems That Will Live," now in preparation.

You will favor us by sending only one poem at the time. Let it be the best of your finished work, timely, and if possible with a rural life setting or appeal. We are too busy to wade through a mass collection of miscellaneous verse. Help us to help you by serving you better.

## ZENIAS

The colorful zenias grow straight and tall  
They glorify the crumbling old stone wall.  
Beruffled in yellow and crimson too—  
Their hearts all glistening with silvery dew;  
They bring a vision of mother to me,  
And once again, her love-lit eyes I see.

These flowers she tended, and always grew  
In vine-clad valley, or lofty plateau.  
In late Autumn days the garden was planned;  
And she gathered seed, with a careful hand;  
Which she planted in Spring-time in a bed  
Rock-rimmed, later they bloomed in bronze and red.

Her zenias still grow quite regal and grand,  
But they miss the touch of her loving hand,  
Their petals are drooping to earth below.  
To wither and sleep beneath the soft snow.  
Again I vision my mother, so dear,  
With blossom filled hands, as when she were here.

—JESSICA MOREHEAD YOUNG.

## HARVESTING TIME

Over the fields of ripened grain  
Sounds the harvester's droned refrain.  
Out of the bustle and clattering din  
Richly the grain flows into the bin.

Meadowlark's herald the harvest time  
Fluting melodies of the season's chime,  
Mingling the twang of the locust's sound  
In a merry tune over the stubble ground.

The granaries full of the tawny wheat,  
And the sun of autumn in wan retreat  
Proclaims the end of harvesting days  
With the earth bound close in hovering haze.

—LELA M. WILLHITE.

## WINDOW SHOPPING

One may select the nicest things  
While walking down the street  
Without the bother trying on  
Or giving a receipt.

No need of either purse or funds  
To humor every whim;  
Just boldly choose, regardless cost,  
And be right in the swim!

No matter what the needs or taste,  
Or article desired,  
Somewhere a window will supply  
The very thing required.

—LOTTYE HUMPHREYVILLE  
ATHEY.

## LIFE AT ITS BEST

At evening, when the sun is low,  
And toiling is at end,  
I straightway go to my bungalow  
To greet each best-loved friend;  
Then put my nose into a book,  
Write a little—to get ahead—  
Eat the meal, and kiss my cook,  
And uneventfully go to bed.

—OSCAR ZILCH.

## Washington Snapshots

by JAMES PRESTON

Capitol Hill talk—in the corridors,  
the offices of Senators and Rep-  
resentatives, at lunch, as well as on  
the floor and in committee rooms—  
revolves around prices, inflation,  
taxes. But it's largely talk. The  
amount of action taking place could  
be used to push a stalled car.

The Administration is frankly—at  
least—worrying about the rising price  
of about the urgent need to block  
inflation. But the Administration  
is no more willing than Congress  
to settle down to serious  
struggle with the problem. Each  
side goes on record as warning  
of the horrors of the coming in-  
flation; each does not want to be  
responsible for slapping on an-  
other stiff tax bill or a rigid price-  
fixing bill. So it looks like a  
future for the buck-passers.

It's a fair bet that a compromise,  
hence not very effective, price  
control will be worked out several  
times hence. The new tax plan,  
proposed by Secretary Morgenthau,  
even farther off. The fact is the  
Secretary of the Treasury placed the  
burden of new taxes in the hands of  
the House Ways and Means Com-  
mittee, which is just beginning to show  
signs of recovering from drafting  
the biggest tax bill in history.

Federal taxes this fiscal year will  
total about \$13,000,000,000, while  
the expectation is that we will spend  
out \$25,500,000,000. Obviously,  
there is a deficit almost equal to  
the entire tax receipts.

While several proposals for raising  
revenue are being discussed,  
none prompting the most comment  
is the suggestion by the Secretary  
of the Treasury for a 15 per cent  
tax on 1942 incomes. This  
would be collected monthly dur-  
ing 1942, while the taxpayer is wor-  
rying about the taxes due on the  
1941 income. In other words, it  
would be like paying almost two  
years' taxes in one year.

The plan, under consideration pri-  
marily by the Treasury officials for  
more than a year, met a cool recep-  
tion at the Capitol. One Congress-  
man, whose reaction may be regard-  
ed as indicative of Capitol attitude,  
said the "check-off is o. k. if you'll  
give me an exemption."

The Treasury leans to the check-  
off as the most practical way of col-  
lecting revenue. Congress wouldn't  
do this, but they believe it  
would work an unreasonable hard-  
ship to ask the check-off on 1942 in-  
comes and salaries run concurrently  
with 1941 payments. They reason  
that most people have no real notion  
of how severely they will be hit by  
the 1941 income tax and should  
have a chance to readjust themselves  
before being hit by a 15 percent cut  
in wage or salary.

Officially, the Ways and Means  
Committee has decided to defer a  
decision as to when next tax legisla-  
tion will be considered. Many more  
things will be held before the  
problem of new taxes is under way,  
and guessing in Washington now is

that some variety of tax-at-source  
will be on the books but not 15 per-  
cent, and not for some time to come.

Meanwhile, a comforting fact has  
just come to the attention of Con-  
gress. The fact: that living costs  
have advanced 5.6 per cent since the  
first of this year, but average hourly  
earnings have risen 11.3 per cent.  
The net result has been a 5.3 per  
cent advance in the purchasing power  
of average hourly earnings. But  
Congressmen are still worrying—and  
with good cause—about the increas-  
ing demands for wage increases in  
anticipation of higher prices. They  
know full well that the race between  
wages and prices inevitably leads to  
the age-old inflation spiral, where  
prices rise because of higher wages,  
costs, and wages in turn are pushed  
up because of higher prices, and  
everyone is the sufferer.

If this seems academic and pretty  
dull stuff, you had better steel your-  
self. Prices, inflation and related  
subjects are bound to be the news  
for months to come, and the price  
controversy is going to play an im-  
portant role in the coming 1942 Con-  
gressional elections.

### THINGS A FARMER MUST DO

To earn his full AAA payments in  
1942, a Medina county farmer must  
do three things.

First, he must devote at least 25  
percent of his land to erosion-resist-  
ing crops or land uses at some time  
during the program year. Second,  
he must plant within his acreage al-  
lotments. Third, he must earn his  
soil-building allowance.

These three points were emphasized  
by V. P. King, chairman of Me-  
dina County AAA committee, this  
week.

A farmer falling below the 25 per-  
cent minimum requirement will earn  
only a proportionate part of his cot-  
ton, wheat, peanut, and Irish potato  
payments.

The soil-building allowance may  
be earned, as in previous years, by  
carrying out approved soil-building  
practices, the AAA official explained.

Payments for planting within al-  
lotments include:

Cotton, Per Pound—1.25 cents  
times Normal Yield.  
Wheat, Per Bushel—10.5 cents  
Peanuts, Per Hundred Pounds—  
7.25 cents.

Commercial Irish Potatoes, Per  
Bushel—2.0 cents.

Crops meeting erosion-resisting  
classification include biennial and  
perennial legumes or grasses, cow-  
peas, soybeans, mung beans, velvet-  
beans, sweet-clover, ryegrass, Natal  
grass, lespedeza, crotalaria and winter  
legumes.

Other crops include 1941 fall-  
seeded small grains not harvested for  
grain, with the exception of wheat.  
If the oats, rye, barley and small  
grain mixtures are cut for hay, they  
must be cut prior to the dough stage.  
The AAA official explained.

Thick-seeded sudan not harvested  
for seed, sweet sorghum or millet  
for pasture; peanuts hogged-off;  
planting forest trees, and green ma-  
nure and cover crops, also meet ero-  
sion-resisting requirements, he said.  
The AAA chairman also pointed out  
that all fall-seeded crops must be  
seeded in the fall of 1941 to apply  
on the 1942 program.

COMBINED AGES OF SEVEN  
SISTERS, ONE BROTHER  
553 YEARS

The combined ages of seven sis-  
ters and one brother, who met re-  
cently in a family reunion at D'Hanis  
was 558 years, making them perhaps  
one of the oldest family groups in  
this part of the state.

The reunion, first in a number of  
years, was of the nine living children  
of Mr. and Mrs. Reinhart, pioneer  
settlers of Medina county. The oc-  
casion also was the golden wedding  
anniversary date of one of the sis-  
ters, Mrs. Ernest Meurin and Mr.  
Meurin, who were married near  
D'Hanis and except for several years  
residence in San Antonio, have been  
residents of the D'Hanis section  
since their marriage.

Ninety relatives from widely scat-  
tered parts of the State attended the  
event, including the two sons of Mr.  
and Mrs. Meurin and their only  
grandchild. At noon a basket lunch  
was served and enjoyed by the large  
group which gathered at the Meurin  
home.

Of the 14 children of Mr. and Mrs.  
Reinhart, nine are still living and  
their ages range from 64 to 83 years.

The children, their ages, and place  
of residence follow:  
Mrs. Joe Richarz Sr., 83, of Con-  
Can; Mrs. Laura Meyer, 77, ConCan;  
Mrs. Ernest Meurin, 75, D'Hanis;  
Mrs. Pete Carle, 73, San Antonio;  
Paul Reinhart, 69, D'Hanis; Mrs.  
Fritz Weber of Utopia and Mrs. Joe  
Reilly of Sabinal, 67-year-old twin  
sisters; Mrs. Frank Carle, 65, of  
San Antonio, and Mrs. Bertha Rie-  
ber, 64, of D'Hanis.

Walter W. Cardwell of Luling  
chairman of the South Texas Cham-  
ber of Commerce agriculture and  
livestock bureau, is slated for chair-  
manship of a new statewide co-ordi-  
nating committee on agriculture.  
Cardwell's selection has been ap-  
proved by a group of representatives  
of the three Texas regional chambers  
who attended a recent conference at  
Tranger. Approved also were other  
officers of the proposed committee,  
as follows: C. M. Francis, Stamford,  
chairman of the West Texas Cham-  
ber's agricultural commission, to be  
vice chairman of the committee;  
George C. Bryan, East Texas Cham-  
ber agricultural chairman, to be pro-  
ject leader, and Elmore R. Torn,  
manager of the East Texas Chamber  
agricultural and forestry depart-  
ment, to be executive secretary.

Minutes of the Granger meeting  
show the following initial statewide  
projects were recommended: 1. Edu-  
cational and demonstrational pro-  
gram on cotton insect control in-  
cluding support of sound agricul-  
tural insecticide law. 2. Adequate sup-  
port for and co-operation with soil  
improvement and conservation pro-  
gram. 3. Intensive program on de-  
velopment and maintenance of pas-  
tures for economical livestock pro-  
duction including pasture equipment  
and material shows. 4. Planning of  
recognition for farm families who do  
a complete job of producing food,  
feed and fibre for national defense  
requirements.

If you're a white-wing hunter and  
bring down a bird with a band on its  
leg, don't throw either the bird or  
the band away! It's not unlawful  
to kill a white-wing or any other  
bird that has been banded. Take the  
band off the bird's leg and send it to  
the Game, Fish and Oyster Com-  
mission, Austin, Texas. The bands  
are used for purely scientific pur-  
poses. Assistance of sportsmen in  
getting the bands returned to the  
Commission will be greatly appre-  
ciated, the Executive Secretary of the  
Commission said. Birds are banded so  
that wildlife research scientists may  
check accurately on migrations and  
other life habits of birds, and recent-  
ly hundreds of white-wings were  
banded in the lower Rio Grande Val-  
ley. Please help the Commission  
help the birds by returning any  
bands discovered.

### HOFFMAN-BOEHME

In an impressive and very lovely ceremony Wednesday evening at 7:30 o'clock, November 19, Miss Luella Boehme, only daughter of Mr. and Mrs. Charles Boehme of Castroville and Mr. Milton Hoffman of Randolph Field, son of the late Mr. and Mrs. Charles Hoffman, were united in the holy bonds of matrimony in St. Louis Catholic Church.

Very Rev. Dean J. Lenzen officiated. To the strains of Lohengrin's Wedding March the bride party entered, Miss Leora Boehme, cousin of the bride, bridesmaid, followed by the maid of honor, Miss Mabel Hoffman, cousin of the bridegroom.

The bride entered on the arm of her father who gave her in marriage. She was lovely in a costume suit of soldier blue woolen, trimmed with red fox fur. Her dress was fashioned on empire lines with a sweetheart neckline. Over this she wore a long fitted coat with red fox lapels and pockets.

After the ceremony the young couple left for San Antonio and Randolph Field while awaiting Mr. Hoffman's transfer to Enid, Oklahoma, where they will make their home.

Miss Hoffman was gowning in a green dress of alpaca. Miss Boehme's dress was of a gold-colored alpaca. Their accessories were brown and they also carried their corsages of yellow gladioli on their bags.

Ward Boehme, only brother of the bride, acted as best man and Vernon Bourgeois, cousin of the bridegroom, was groomsmen. They wore chocolate brown suits with boutonnieres of yellow gladioli and the bridegroom a white gardenia.

The altars were beautifully decorated with vari-colored seasonal blossoms.

After the ceremony the young couple left for San Antonio and Randolph Field while awaiting Mr. Hoffman's transfer to Enid, Oklahoma, where they will make their home.

## SCHOOL NEWS

From The Owl:

### RED CROSS CONTRIBUTIONS FOURTH GRADE NEWS

We have a poem written by Ernestine Garber which deserves mention. We think.

Hugo and Bobby went to school;  
They obeyed the Golden Rule.  
Hugo and Bobby went to bed;  
I had a dream Hugo said.

Our room received a letter from the fourth grade in Northfield, Mass.

They are writing a letter to one school in each state, and Hondo was chosen, because the towns are of about the same size. We have written the following letter and sent it to them.

We spent some time in learning how to write a letter before we could send an answer.

Hondo Public School  
Hondo, Texas

November 24, 1941

Dear Boys and Girls,

We enjoyed your letter very much. Just a short time ago, we read in "My Weekly Reader" about Massachusetts being the cranberry state. Are there cranberry bogs near Northfield?

Our town has about two thousand five hundred people. Hondo is the county seat of Medina County. We have four schools; a Public School, Saint John School, Mexican School, and a Colored School.

We live forty miles southwest of San Antonio, one of Texas' largest cities. Our climate is mild. It does not snow here very often.

We have twelve grades in our school. There are seventeen teachers in our building. In our room we have seventeen pupils.

Our teacher's name is Miss Lois Crowley.

This week we have studied about the Pilgrims. We have Thursday and Friday for our holidays. Did you have Thanksgiving holidays?

Please write to us again. We would like to hear from you and to write to you.

Sincerely yours,  
THE FOURTH GRADE.

### F. F. A. Hold Recreational Meeting

A volley ball tournament was held at the F. F. A. meeting last Wednesday night. All members present were chosen into four teams. Teams 1 and 3 played the first game with team No. 1 winning by a score of 12 to 5. Next, teams 2 and 4 played with team No. 2 winning by a score of 15 to 8. The play-off to decide the championship was then played with team No. 1 winning by a score of 18 to 10.

There were 30 members present at the meeting. The next regular meeting will be held December 3. At this meeting plans for the annual Farmint Hunt will probably be discussed. Please attend this meeting.

### FATHER'S NIGHT TO TAKE PLACE IN DECEMBER

A program is being worked up for Father's Night which will take place Thursday, December 11.

Miss Woodley is working out details for an operetta to be presented by the first five grades of grammar school.

Father's Night will take the place of the December P. T. A. meeting.

### FIRST GRADE NEWS

We have begun to read our first book and find it very interesting.

We have been making turkeys because it is nearing Thanksgiving. We are eagerly waiting for the holidays.

A new pupil has come to our class and we are very glad to have her. Her name is Iva Jean Senne. We hope she will like living in Hondo.

### FOOTBALL DANCE A SUCCESS SOPHOMORE DANCE

Friday night, November 21, a dance was held in the Hondo High gymnasium immediately after the Hondo-Sabinal game from 10 to 12:30. Music was furnished by Buddy Hancock's orchestra.

The dance was very successful and ended the football dances for the year.

With eager, outstretched minds  
They run to you,

They run to you with open, outstretched minds.

### PRAYER OF A YOUNG POET

Let me leave the Old, the Dark,  
The turmoil of the ages.  
Let me turn from  
Terror and war and tears—  
Old sorrows which have pressed on  
the heart of the world  
Since its first beating.

Let me be blind to the brutal, the bloody,  
Let me forget the blackness of death—

These were earth's songs  
At the dawn of time.

Let youth be my song  
And laughter be my singing.

Let me write from the richness of hearts that are young.

Let my muse be life and my pen gold-fire—

Let me sing laughter and sunlight  
and stars,  
Sea-foam and dancing,

White sands and clean winds,  
Let me sing Youth.

—VIRGINIA PATY

### FRESHMAN

Pin-striped suit, crisp white shirt,  
Blue tie primed with care,  
A fashion plate—unless you spot  
The straw wisp in his hair.

### SOPHOMORE

He calls the world by its first name;  
Big shots are "Bob" and "Jim."  
He greets the Who's Who and the mass—

But no one speaks to him!

### JUNIOR

He spends his hours at campus tables  
Papers spread, and books piled high.

He studies hard and feverishly—  
Every blonde who passes by.

### SENIOR

He talks with pride of his degree,  
And Senior Week and his career.  
He talks importantly to those  
Who don't know he'll be back next year.

—VIRGINIA PATY

### TRIOLET

Some fairies in my garden green  
Looked up at me and smiled.  
All dressed were they in soft spun sheen,

These fairies in my garden green,  
With diamond dewdrops all between,  
At once my heart beguiled.  
Some fairies in my garden green  
Looked up at me and smiled.

—ESTA McELRATH

### PRACTICE

Ovals and push pulls  
That is what I am making.  
One line curves in a circle;  
The next goes up and down.  
I put fancy endings on my push pulls  
So they will look worth while.

—VIRGINIA McHUGH

### PLEASE PASS THE BISCUITS

Watered sweetmilk, burned toast—  
Eggs on the table? Lord, that's the most!  
Beans — red beans — swimming in juice;  
And too-brown rolls your palate seduce.

Ice cream? Sure, but bring on the straws—  
Hamburgers for supper not fit for in-laws.

Are we men or mice? Well, probably the mouse  
Fares better than folks 'round our boarding house.

—EDITH McELHENY

### THE EMPTY CHAIR (In three sad verses)

The class was duller—  
The day much hotter;  
The prof rambled on—  
But I forgot 'er.

The fans ran slower—  
Oh, curse the fate!  
Up! Up, my hopes—  
P'raps he's just late.

Drag by, ye hours—  
I cannot smile;  
He's cut class—  
And nothing's worth while.

—EDITH McELHENY

### Sophomore Dance

The sophomore dance proved to be a grand success. The music was furnished by a nickelodeon. The high school faculty was invited and the dance started at 8 p. m., being held in the gymnasium. It was over at about 11 p. m.

We wish to thank Mr. McDowell, Mr. and Mrs. Dixon, Mrs. Amberson, and Mrs. Beal for chaperoning.

There were about twenty-five couples present and all had a grand time.

### PREPARING FOR LARGE CROWD AT PEARSALL-HONDO GAME

Additional seats are being constructed at the Maverick Field in Pearsall for the Hondo-Pearsall district championship game to be played here Friday night November 28. There will be 500 reserve seats on the east side and on the west side will be 600, 300 of which will be mailed to Hondo. The seats will be marked 24 inches wide.

The games that are being played this week will not effect the winner in the north half or south half of the district, as the record of games played thus far insures Pearsall and Hondo the right to play the district game.—Pearsall Leader.

### PEARSALL WINS NINTH STRAIGHT AND PLAY OWLS

Pearsall, Nov. 22. — The Pearsall Mavericks won their ninth straight victory of the season here last night by defeating Cotulla, 38 to 0.

Gossett and Cude scored once each and Wallace crossed the goal line four times. Gossett left the game at the first half with a badly injured arm.

The Mavericks will play the Hondo Owls, champs of the north zone, here next Friday to determine the district championship.

### HONDO WINS

The Hondo Owls completed their 1941 football schedule Friday night with a 53-0 victory over the Sabinal Yellowjackets. The Owls now will play the Pearsall Mavericks for the district title Friday night at Pearsall.

"What is the difference," asked the teacher, "between caution and cowardice?"

Johnny, who observed things carefully for so youthful a person, answered:

"Caution is when you're afraid, and cowardice is when the other fellow's afraid."

A watch weighing four pounds, four ounces, is on show at an Eastern exhibition of antique timepieces. It dates from an earlier day, when time hung heavily.—H. V. Wade.

We failed to receive the D'Hanis letter this week.
